

## ***WITH LOVE, WE WILL RESIST***

On Sunday, January 15th, the 88th birthday of Dr. Martin Luther King, Jr. [Interfaith Moral Action on Climate](#) invites you to join us in a multi-faith, spiritual assembly to renew our strength. Dr. King stood up strong against racism, economic injustice, militarism and oppression. As we gather together this week and beyond, we will stand up, organize, and act for justice, for the people and for the planet.

Let's act in solidarity with Standing Rock. Water is life!

Let's call for a moral revolution! — that revolution of values for which Dr. King lived and died.
